

Diamond Portfolio

STORAGE TANKS

- Shop completed to 15'-6" diameter
- Field assembled to 35' diameter
- On-site fabrication
- Option for rectangular tanks
- RTP-1 stamping available at 2 separate plant locations (Houston and Victoria, TX)

PROCESS VESSELS

- Gas scrubbers
- Absorbers/adsorbers
- Mix tanks
- Grease filters/mist elimination

COMPLEMENTARY PRODUCTS

- FRP ladders, stairs and handrails
- FRP platforms
- Expansion joints, dip tubes, and hoses
- FRP and lined steel piping systems

FIBREX ENGINEERED FRP PIPING SYSTEMS

- Custom pipe, flanges, and fittings
- Low pressure ductwork
- Specialty fabrications

FIELD SERVICES

- Tank repairs and installations, including RTP-1
- Piping repair and installations
- Linings and coatings for FRP, concrete, and steel
- FRP inspections
- Installation of FRP structures
- Dedicated crews, trucks, and equipment ready to deploy anywhere

SPECIALIZED DELIVERY

- Specially built trailers for transporting tanks
- Trailers and tractors owned by Diamond
- Diamond drivers

Key Markets Served by Diamond Fiberglass Systems and Services

- Water & Wastewater Treatment (municipal and industrial)
- Chlor-Alkali
- Data Centers
- Food and Beverage
- Mining of Metals & Minerals
- Pharmaceutical
- Power Generation
- Pulp and Paper
- Semiconductor
- Specialty Chemicals
- Steel Pickling

Diamond Fiberglass Systems and Services is an Andronaco Industries company. Andronaco has a long history as a leading **US-based manufacturer** of high-performance fluid management and flow control products for demanding and highly corrosive applications.

Example of our lined composites Total Systems Turnkey™ approach; also available for unlined composites and lined metal systems

ANDRONACO INDUSTRIES TOTAL SYSTEMS TURNKEY™ APPROACH

- Andronaco Industries, supported by Diamond Fiberglass Systems and Services, is a Total Systems Turnkey™ provider
- Andronaco and Diamond are unique in that we provide field services as well as manufacture a broad product line consisting of multiple materials of construction
- Our products include lined metallic and nonmetallic piping and fittings, valves, expansion joints, hoses, system accessories, pumps, and vessels/tanks
- No other manufacturer in this space brings together your end-to-end product needs in combination with field services for your safe and reliable operations
- Our goal is to increase your uptime while also lowering the total cost of ownership

Made in USA
